

## City of Tenino, Council, Position No. 1

*Nonpartisan*

### **John J. O'Callahan**

It has been an honor to serve the city of Tenino and you for the two terms that you have allowed me to do so. I thank you for the privilege and ask for your vote, yet again.

Tenino will be celebrating its 100th birthday this year and is going to see changes due to the sewer system and pressures that have been placed upon this county. Tenino has a good team of representatives on this council to watch out for you and I would like to continue to be a part of that team. Thank you for your vote.

I am running for a new four-year term as Position 4 on the Tenino city council. I have lived here in Tenino for thirteen years. I have been serving in this position for about the past year and a half. It has been very interesting thus far. I hope to continue to serve Tenino and help it prosper and grow. Tenino is a small city with good people. It has a certain "home town" charm that many cities have lost. We have made important decisions in the past year and a half and have had the support of the citizens of Tenino. I look forward to maintaining that support. Please elect me for another four-year term. Thank you.

I believe every citizen has a responsibility to do what they can to improve the community in which they live.

I have been serving on the city council in an appointed capacity since June, 2005. I have learned a great deal about our community and about the challenges we face. Your city council represents a diverse group of individuals with strong views. Through thoughtful, thorough, informed discussions, we find solutions which best meet the needs of Tenino residents.

I look forward to continuing to serve on our city council and to hearing what concerns you have. I encourage you to attend a city council meeting, to find out what's going on in your community, and to do what you can do to improve our wonderful city. Take an active role in our schools, volunteer to help a neighbor, or become politically active. No level of participation is too small.
