CEMETERY DISTRICTS *Thurston County has two operating cemetery districts: District No. 1 in Grand Mound/Rochester and District No. 2 in Yelm. Each district elects a three-member nonpartisan commission from within its jurisdiction, and the commissioners serve staggered six-year terms. The commission is non-salaried, but members may be reimbursed for expenses.*

Under state law, a commission is empowered to make and carry out contracts and to acquire, improve, and operate cemeteries. It establishes fees and regulations for their use.

The budget is prepared by the district commission and certified by the Board of County Commissioners. The county Treasurer receives and disburses all revenues and maintains a cemetery fund for each district. Funding comes from revenue received through the sale of cemetery lots, from the district's share of the junior taxing district levies, and from private donations.

Cemetery District No. 1 (Grand Mound) - Commissioner, Position No. 1

Cemetery District No. 2 (Yelm) - Commissioner, Position No. 1

I have served on the Cemetery Board since 1983, and many favorable changes have occurred. The appearance of the grounds have been improved by installing a sprinkler system and well. Almost five acres have been added to the cemetery increasing the size to just under fifteen acres.

The cemetery board has installed a cremation niche wall which holds 256 singles or doubles. All cemetery data is saved in a software program showing all plots either available, reserved, or purchased.

A three-car garage to house equipment was erected and all equipment was upgraded. These improvements could not have been accomplished had it not been for the interest and devotion of Darlene, other board members, and the caretaker hired by the Cemetery Board.

The Yelm Cemetery Board invites you to come see your beautiful cemetery on Cook Road.

Darlene E Baker	**PO Box 727, Yelm, Washington 98597, (360) 458-7302**
