

**CERTIFICATION OF INSPECTION AND INSTALLATION OF TWO-PARTY  
WATER SYSTEM PROJECTS**

Prior to release of sewage system designs, building permits, or final subdivision approval for which two-party system plans and specifications have received the approval of Thurston County Health Officer, a certification shall be made to the Health Officer signed by the system engineer, designer, or project applicant that the water system was inspected by him or his authorized agent and that it was constructed as per the plans and specifications approved by the Health Officer in accordance with Article III and WAC 246-290-040.

INSTRUCTIONS:

1. If a project is being completed in staged construction, attach a map and description of that portion being certified.
2. As future portions of staged construction projects are completed, each must be certified prior to it's use in the system.
3. Additional certification forms are available upon request from the Thurston County Health Department.
