## Certification

According to Washington state law, Chapter 173-303 Washington Administrative Code, a small quantity generator is a business, institution or government office that generates less than 220 pounds of hazardous waste per month or batch, and less than 2.2 pounds of acute hazardous waste per month. Small quantity generators may accumulate or store no more than 2,200 pounds of hazardous waste on site at any time. Based on state law and the facility operating permit, HazoHouse can only accept wastes from small quantity generators.

I certify that my organization is a small quantity generator as defined by Chapter 173-303 (070) WAC. I understand that I must complete this registration form in order to deliver hazardous waste to HazoHouse. I certify under penalty of perjury under the laws of the state of Washington that the foregoing statement is true and correct.

## Charge Account Contract

The undersigned agrees to pay all fees associated with the disposal of hazardous waste brought to HazoHouse. The undersigned is liable for payment within 15 working days from the date of the invoice by the Thurston County Department of Water and Waste Management.

The undersigned further agrees to pay all costs associated with any effort or action needed to collect payment of a past due account which require the services of a collection agency, attorney, or other judicial action. The undersigned also agrees that the County may refuse to extend services to any customer with an invoice 30 days past due.

The undersigned agrees that fees are subject to change.
