NOTE: The Winter Water Study Application fee that is paid at the time this application is submitted, (referred to as the base fee) is a down payment. It allows for five hours of review time. Most Winter Water Studies are completed in five to six hours. When the study is completed, the applicant will be billed for any additional review time over five hours, at the standard hourly rate in effect at the time the review took place. The Winter Water Study report will be sent to the applicant after the review fees have been paid. If you do **NOT** wish to have the complete Winter Water Study review, please check the box below, indicating that you wish the review to be stopped after five hours and do not wish to incur any additional review fee. Please be aware that a five-hour review **MAY** result in a report that is not conclusive or may not have useful results.
