Public Record Act Policy

1. Purpose

This policy was created to establish a process for Thurston County staff to assist members of the public in accessing Public Information.

2. Public Records Officers Identified

All County designated Public Record Officers and Coordinators’ names and contact information to which the public may direct Public Records Requests will be posted on the County’s Web site.

3. County Receipt of Public Record Requests

All Public Record Requests must be directed to the County Agency’s designated Public Records' Officer or Coordinator. County Agency is defined in the County’s Public Record Act Procedures on the County’s Web site.

Record Requests that are received by other individuals not designated as the Thurston County Public Record Officer or Coordinator will not be considered official Public Record Requests and will not be subject to the strict timelines provided in the Public Records Act. Public Records Requests directed to other Thurston County staff may not be accepted.

It is the duty of the Requester to provide the Public Record Request to the designated Public Records’ Officer or Public Record Agency Coordinator identified on the County’s Web site.

4. When Public Record Requests can be made in Person

In-person Records Requests must be made during the normal business hours of the County Agency. County Agency hours are posted in each office and also on the Thurston County Web site.

5. Electronic Public Record Requests

Emailed Public Records Requests will only be accepted at the official Thurston County Public Record Request email address as provided on the County’s Web site and in the County’s Public Record Act Procedures. If electronic files are requested to be returned via email, the County is not required to provide such files electronically if the sizes of the electronic files or attachments exceed the capacity of the County’s email system.

The County does not warrant or in any way guarantee the accuracy or completeness of any Public Records that are sent electronically through the internet.
6. **Protecting Public Records**

Original Public Records shall not be removed from any County Agency.

7. **Fees for Public Records**

Thurston County has established a fee schedule for copying or producing custom records in response to Public Record Requests. There is no fee for inspecting or searching for Public Records. The current list of fees is posted on the County’s Web site and subject to change at any time without notice.

The payment of estimated copying or production fees may be requested by County Agencies prior to the county performing any work necessary to produce the records for the Requester.

8. **Waiver of Fees for Public Records**

County Agencies have the discretion to charge less than the designated Thurston County fee schedule posted on the County’s Web site.

9. **Closing Withdrawn or Abandoned Public Records Requests**

Thurston County may close, as completed, any Public Records Request where the Requester fails to claim or review assembled records within thirty days of notification to him/her that the records are available for inspection or copying.

10. **Public Record Index**

Thurston County has opted out of the indexing requirement (see RCW 42.56.070(4)). All County Agencies find that maintaining an index of all records in all the various divisions, departments and Elected Officials Offices is unduly burdensome and would interfere with Thurston County operations due to the number and complexity of records generated as a result of the wide range of county activities. Contact the specific County Agency to view any index of records that they may have available.
