SOLID WASTE

Resources for Girl Scouts

REDUCE  REUSE  RECYCLE

Reduce, Reuse, Recycle patch

Our FREE patch program teaches Girl Scouts how to put “reduce, reuse, recycle” into action.

Scouts can earn their RRR patch by completing activities and action projects focused on reducing, reusing, and recycling. Troops can complete activities and action projects at home, at school, or in their neighborhoods.

Presentations

We also offer free, fun presentations for Girl Scouts of all ages about recycling, waste reduction, packaging, worms and worm bins, and household hazardous products.

Some of these presentations and hands-on activities qualify them for Petals, Try-Its, Badges, and Interest Project Awards. Visit our website to learn what types of activities we can help with.

Activity and project ideas

By participating in activities and action projects, your troop can work toward earning official Girl Scout badges or our RRR patch. We can help with information and supplies to pick up litter, host a clothing or toy swap, or make art projects out of trash and recyclables.
