

Timber Management Information Sheet

Complete the following information

Owner Name(s)

Parcel Number(s)

Mailing Address

Property Address

The Timber Management Plan should be prepared by a trained forester, or any other person with adequate knowledge of timber management practices.

If you need a list of foresters or information about the Forest Stewardship Program Contact Julie Sackett, Department of Natural Resources at (360) 902-2903.

The Timber Management Plan must contain the following information:

- Cover page with owner and property information
- Ownership objectives
- General property description
- All "Resource Categories"
 - Category 1: Forest Health, Wildfire & Invasive Species**
 - Category 2: Soils**
- Map(s) and aerial photo of the property
- 20-year (or more) estimated implementation timetable of management activities.
- Signatures of landowner(s) and authorized approving official.

Name of Person / Company who prepared Management Plan:

Owners Signature(s)

Owners Phone Number(s)

Date

RCW 84.33.035 requires land to be devoted primarily to growing and harvesting timber. Designated forestland means the land only and does not include a residential homesite.
