MEMORANDUM

DATE: August 1, 2002

TO: On-site Sewage Professionals and other interested parties

FROM: Randy Freeby, Technical Lead
(360) 786-5748

SUBJECT: Application of WSDOH Recommended Standards & Guidance (RS&G) for many different systems.

The following RS&G documents will be applied in Thurston County just as they are written. The recommended standards (numbered sections) will be required. The application of these RS&G officially goes into effect September 1, 2002. For a proposal contrary to any required section, a waiver may be requested with technical justification to support the waiver.

Glendon Biofilters
Gravelless Drainfields
Holding Tank Sewage Systems
Recirculating Gravel Filter Systems
Stratified Sand Filter Treatment Systems
Proprietary Packed Bed Filters
Alternating Drainfields
Dosing Gravity Drainfield Systems

It is possible that any of these documents may eventually require a specific policy for application in Thurston County.

You may obtain a copy of these RS&G documents from the WSDOH webpage. www.doh.wa.gov
