

**Residents of Henderson/Nisqually
Shellfish Protection Districts**

**Septic Tank Riser
Rebate Program**

- No more digging! Install risers on your septic tank to gain easy access for inspection and pumping.
- Receive \$50 per riser, up to \$100, after installing 24-inch risers with lids over your septic tank. Rebate also good for riser over pump chamber, sand filter, or distribution-box.

NOTE: We recommend you install two risers, one over each compartment of the septic tank – you need access to each for pumping.

- Install yourself OR have risers installed by a certified pumper or licensed installer.
- Purchase risers from retailer of your choice.

Three retailers sell risers in Thurston County:

- Ferguson Enterprises, Inc, 810 79th Ave SE, Tumwater 360-539-7518
- H.B. Jaeger, 2840 Black Lk. Blvd. SW Ste. B 360-539-7518
- H.D. Fowler, 3011 Marvin Rd NE, Lacey 360-459-7300

To Qualify

- Property must be within either the Henderson or Nisqually Shellfish Protection District. Call the number below or see www.co.thurston.wa.us/shellfish for maps to see if you are eligible.
- Limit two rebates per property owner.
- Effective as long as funds last through 2019.
- Existing systems only; not for new or newly repaired systems.
- Applies to risers installed after 7/1/06.

For more information, call Thurston County Environmental Health at 360-867-2644.

To receive a rebate, send us:

1. Copy of receipt for riser(s) purchased, **and**;
2. Proof that risers were installed—**photograph if self-installed** risers OR copy of receipt for professional installation, **and**;
3. This card with the following information:

Name (please print)

Address where septic system is located

City, state, zip

Mailing address, if different from above

City, state, zip

Phone number

Tax Parcel Number

of large (24") diameter risers installed

Mail this card, receipt and photo (if needed) to:

**Riser Rebate Program
Thurston County Environmental Health
412 Lilly Road NE
Olympia, WA 98506**

Please allow 4-6 weeks for processing.
