CERTIFICATE OF WATER AVAILABILITY (COWA)

Connection to a Public Water System

Purpose: To assure the availability of potable drinking water per RCW 19.27 and Article III of the Thurston County Sanitary Code.

Issuance of a Certificate of Water Availability (COWA) is required prior to issuance of all building permits for new construction or change of use when potable drinking water is required.

**CERTIFICATE OF WATER AVAILABILITY (COWA) INSTRUCTIONS
CONNECTION TO A PUBLIC WATER SYSTEM**

STEP 1 Purveyor or owner of the public water system shall complete the section of the form titled Public Water Purveyor or Owner.

STEP 2 Submit the form to:

Thurston County Community Planning & Economic Development
Building Development Center
2000 Lakeridge Drive SW
Olympia, WA 98502

STEP 3

Group A Public Water Systems: Thurston County Building Development Center staff reviews the water system adequacy report provided by the Washington State Department of Health Office of Drinking Water and recommends approval of the COWA if the requirements to demonstrate water availability are met.

Group B Public Water Systems: Thurston County Environmental Health staff evaluates the public water system records to determine whether the proposed connection is within the scope of system approval, and if the system is in compliance with water quality monitoring and other operational requirements. Environmental Health staff will recommend whether or not COWA should be approved. Building Development Center staff approves the COWA if the requirements to demonstrate water availability are met.
