NOTICE:

This affidavit must be notarized and recorded with the Thurston County Auditor and a copy must be filed with the Thurston County Community Planning and Economic Development (CPED) Department.

I, the undersigned, certify that the water supply associated with development of this property relies on a groundwater withdrawal that is exempt from permitting under RCW 90.44.050. I understand that the following restrictions apply to the use of permit-exempt groundwater withdrawals in the Deschutes and Kennedy-Goldsborough watersheds (WRIAs 13 and 14), and I will abide by these regulations.

1. Groundwater withdrawals on this property are limited to a maximum annual average of nine-hundred-fifty (950) gallons per day per connection.
2. During a drought emergency order (RCW 43.83B.405), the Department of Ecology may curtail withdrawal of groundwater on this property to no more than three hundred fifty (350) gallons per day per connection for indoor use only. Notwithstanding this limit, I may use groundwater to maintain a fire control buffer during a drought emergency order.
3. Stormwater runoff on this property must be managed on-site to the extent practicable by maximizing infiltration, using low impact development techniques.
